YOUR BIGGEST CHEERLEADER!

**SUCCESS LOOKS DIFFERENT FOR ALL OF US,  
YOUR DREAMS ARE WORTH PURSUING.**

# ABOUT

Jessica Bettencourt is a two time multi-million dollar business builder. Her entrepreneurial journey started the same as many others, a few failed attempts! Thank goodness she didn't listen to her critics and go back to Corporate America. Jessica took a chance in an unknown field. She was willing to learn, make mistakes and keep going. She trusted her instincts over what society was telling her. She built her first successful business into a business with over \$30 million in annual revenue and before she started, she had zero knowledge in that field. She went on to start a second business and grew that to over \$40 million in annual revenue.

Jessica has a heart to encourage women who haven't always taken the traditional path. Maybe society has knocked you down a few times and you feel stuck. Perhaps social media has you trapped in the comparison game. If you need a swift kick in the pants, Jessica is your girl! She will tell you like it is but she will also give you practical tips and advice to help move you in the right direction. She will have you laughing and crying but most importantly, she'll have you believing in yourself and building the life of your dreams!
